

## POINTS OF INTEREST

(see map for location)

- A. Oceanside Pier** At 1,954 feet, this pier is the fourth longest pier in California. Built in 1888 and destroyed by storms over the years, the pier was rebuilt in 1987.
- B. Rotary Park** This park features a large outdoor amphitheater, restrooms, playgrounds, and of course, the beach!
- C. San Luis Rey River Trail** Over 69 miles long, the river's headwaters are in the Cleveland National Forest near Palomar Mountain. There is little water in the river during most of the year, but that can dramatically change during winter storms.
- D. Lawrence Canyon** This 80 acre natural space is teeming with life – current and extinct! Several endangered birds call this habitat home. Prehistoric horse fossils and Megalodon shark teeth have both been excavated here.
- E. Oceanside Municipal Airport** Watch for skydivers! This small airport is the perfect location to skydive, offering unobstructed ocean views at 13,000 feet.
- F. Mission San Luis Rey** Founded by Padre Fermin Lasuen in 1798, it was the eighteenth of 21 Spanish missions in California. At its prime, the Mission San Luis Rey's structures covered 6 acres, making it one of the largest missions.
- G. Mance Buchanan Park** This park overlooks the San Luis Rey River, includes picnic tables, and sits at the junction of the San Luis Rey River Trail and College Blvd.
- H. Guajome Regional Park & Lake** Near one end of the park stands a historic adobe ranch built in the 1850's. You'll enjoy miles of hiking and bike trails, large picnic areas, and beautiful scenery.
